BATHWORLD

NILO
marketed by **BATHWORLD PTE LTD**
www.bathworld.net

With NILO, Arblu explores new lands in the concept world making a hydromassage column into a corner of feelings for the wellbeing. The hydromassage bar, pure and curvy in its profiles, devised as real piece of furniture, is designed to be hung from the floor level and put beside a wall in a corner position. The hydromassage coloumn features a hand shower and shower mixer as well as a rainfall showerhead for an abundant and constant flow of water to create the best gratifying feeling of a waterfall. Six powerful horizontal jets recreate a spa environment offering a set of options ranging from a relaxing massage to a strengthening massage. Nilo is available in glossy colour ranges, including colours such as white and chrome, cobalt blue, olive green, bright red and dark grey.
